

# Client Care Program

The Professional Advantage Client Care Program is a carefully designed modern and comprehensive care program specifically for Microsoft Dynamics 365 Business Central. It covers important elements in the successful ongoing lifecycle of your Business Central solution.

## What does the Client Care Program include?

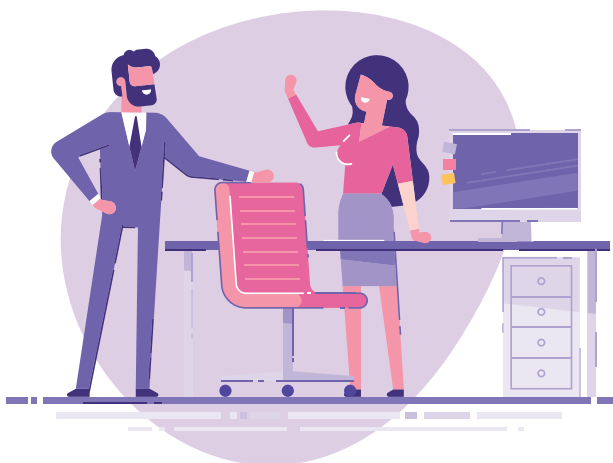

### Client Management Team:

- Account Coordinator
- Account Manager

The role of our Client Management team is to support regular meetings to cover both usual operation and strategic plans.

### Client Support Team (helpdesk)

Our Client Support team is equipped with skilled resources, leading technology, and partner relationships

### Release Management

Our Release Management provides dedicated co-ordination and consultant expertise so that each release goes by unnoticed by the users and provides a path to assess new features and improvements.
